

How it works

Getting the 1 month or 3 months plan means you can have 4 or 12 tracks mixed/mastered in a Time Frame of 1 or 3 months. Let's say you've bought the 1 month plan, this means you can have 4 tracks fully mastered in 1 month. If something falls behind you can always discuss the possibilities.

I'm mastering the tracks around -8 LUFS. This will give you enough loudness to play in clubs, but still keeps the Dynamic Range. Resulting in super punchy, clear tracks that won't be distorted on streaming platforms. Streaming platforms always turn down the volume of a mastered track. With my mastering plan you'll have the best possible sound for both streaming & playing live.

I'll always deliver tracks in 16bit and 24bit. It's also possible for the artist/label to come to my studio while working on the tracks. Most of the time I can deliver the master in 1 to 3 days after ordering. Mixing can take a few days more to deliver.

Mastering Service

1 stem Master

This is the most used way of mastering, using only 1 render of the whole track. Would recommend this service for mixdowns that are well done. If the mixdown isn't done correctly, I would not be able to get the best results possible for the track.

	1 Track	4 Tracks	12 Tracks	
Time frame	X	1 month	3 months	
Price	€ 80,-	€ 260,-	€ 660,-	
Price per track	€ 80,-	€ 65,-	€ 55,-	
Discount	X	18,75 %	31,25 %	

Stem Mastering Service

When using 5 stems of the main groups in the track, I can make sure the track is well balanced and fix minor mixdown issues. I would also be able to use the analogue summing mixer for a super clear, wide sounding track. Would recommend this service for all mastering to make sure you'll have a super HQ sound on your label.

	1 Track	4 Tracks	12 Tracks	
Time frame	X	1 month	3 months	
Price	€ 120,-	€ 390,-	€ 990,-	
Price per track	€ 120,-	€ 97,50	€ 82,50

Mixing Service

If the artist or the label wish to get a track properly mixed, I will need all the sounds bounced to stems of the track. When doing this I can apply all the techniques needed and make sure the sounds are sitting in the right space. You'll also get the most benefits of all the analogue gear that I have available in my studio. I would recommend this service for tracks with lack in power, clear sound or noise/distortion.
